Hayden, Idaho 83835

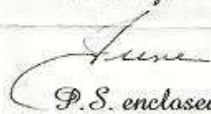

Dear Kevin,

I left your office about 1 hour ago. I have written to Dr. Yovichin thanking him for his recommendation to call you for your evaluation and treatment for the pain in my right leg that he diagnosed as a possible syatic (sp) nerve problem.

You confirmed his diagnoses and began treatment. Kevin, I want to thank you for the learning experience and the tremendously beneficial treatments received. It has been a joy from beginning to end, not only for the physical healing and help received, but for the understanding of what I actually did to cause this problem in the first place and the exercises suggested that will help to continue strengthening my back.

You truly are an unforgettable bunch, and I want you to know how much you are appreciated. You're in my prayers Kevin; may God enable the continuance of your highly professional service, which includes your wonderful medical abilities and knowledge; may God continue to prosper your business monetarily and also in ways that money can't buy! I thank you and each one of your wonderful staff for their compassion, their department, and professionalism. In my book, they are the best!

Sincerely,

P.S. enclosed you will find a copy of the letter I sent to Dr. Yovichin.
